SUMMARY

Passionate Front-end and React.js Developer with solid proficiency in HTML, CSS, and JavaScript. Experienced in crafting visually appealing and functional user interfaces, focusing on dynamic and responsive web applications. Knowledgeable in state management, API integration, and modern JavaScript practices, with a collaborative approach to project delivery. Dedicated to continuous learning and staying updated on industry trends to contribute effectively to project success.

EXPERIENCE

Jr. Front end React Developer
Digital Dose India (Remote)

Front end Developer intern
Computribe

PROJECTS

Guru Harkrishan High School & junior College

Digital Dose • <https://guruharkrishanmumbai.edu.in>

- Developed a centralized School and College Website using React.js, offering intuitive navigation and essential information for students, faculty, and parents.
- Its responsive design and modern features enhance communication and accessibility within the educational community.

MS Beauty Salon

Computribe <https://salon-mz1y.vercel.app>

- Crafted a dynamic and visually appealing salon website using React.js, enhancing user experience and functionality.
- Leveraged modern web development techniques to create an intuitive interface for scheduling appointments, showcasing services, and engaging clientele.
- Employed responsive design principles for seamless accessibility across various devices, ensuring a polished online presence for the salon.

Maritime Education System and Job Portal

University Project

- Created a robust maritime education system and job portal with real-time chat and job search functionalities for enhanced user experience.
- Ensured optimal performance and scalability, integrating a notification system to keep users updated.
- Designed an efficient admin dashboard for streamlined management and moderation of platform activities.
